

## INTERNSHIP PROGRAMME

Do you want to put your knowledge into practice?

Ydilo offers university students intern placements for on-site training in the Projects, Quality Assurance, Operations and R&D departments. The most required profiles match students with a science background, in particular IT and Telecommunications.

### WE NEED:

- Students in the last years of their studies, with more than 50% of the credits passed
- Solid knowledge of the Java programming language
- Available mornings, from 9:00 -14:00 for the internship
- Proactive and responsible attitude

### WE OFFER:

- Financial aid for studies
- Transport benefit or parking place
- Training in advanced voice recognition systems
- Opportunity to join the workforce once the internship has completed

If you are interested in an internship at Ydilo, send us your CV to [jobs@ydilo.com](mailto:jobs@ydilo.com) indicating "Internship" in the subject field of your email message.
